

# FROM 78 CM TO 3.3 M IN 10 SECONDS **TRY IT YOURSELF!**

## Extending the ladder

1. To extend the ladder to its full length, place one foot on the bottom rung of the ladder and extend each telescopic section in turn starting from the top.

2. Ensure all locking levers (red buttons) located below each rung are visible, indicating that the sections are securely locked.

3. The ladder is safe and ready to use.

## Closing the ladder down

1. Pull each locking ring to unlock the telescopic sections.

2. The AUTOSTEPS™ function makes the ladder close down automatically.

3. Ready to go.
